### SUMMARY

Results-driven Software Engineer with a background in Electrical Engineering and strong experience designing and building full-stack web applications. Skilled in Node.js, TypeScript, PostgreSQL, and modern frontend frameworks, with hands-on experience developing complex systems including freelance marketplaces, payment integrations, and multi-currency financial workflows. Proven ability to architect backend services, integrate third-party APIs, and deliver scalable, production-ready applications.

### EXPERIENCE

#### Software Developer

Shega Media and Technologies

11/2024 – Present  
Addis Ababa, Ethiopia

- Shega Insights Platform: Developed Shega Insights, a data-driven market intelligence platform that aggregates and structures insights on Ethiopia's financial and startup ecosystem, providing investors and decision-makers with searchable datasets, analytics tools, and research reports.
- Survey Platform: Built a custom, in-house survey collection tool-similar to Google Forms-using Next.js and Supabase. The platform automated data aggregation, leading to a 40% faster analysis of customer feedback cycles.
- Profitability Dashboard: Architected and delivered an internal dashboard to precisely calculate project viability and financial performance. The tool improved C-level forecast accuracy by over 15%.
- HR Automation: Designed and implemented a custom HR automation system using Microsoft Power Apps, reducing manual data entry for the HR department by approx. 10 hours per week.

#### Lead Developer & Architect

Nexus Replay

06/2024 – 10/2024  
Addis Ababa, Ethiopia

- Architected and built the 'Nexus' backtesting platform from the ground up, leading all phases of development from UI/UX design to front-end implementation and back-end engineering.
- Solely designed, developed, and deployed the platform, creating a robust and feature-rich application for financial traders.

#### Software Developer

Schimerol

12/2023 – 02/2024  
Addis Ababa, Ethiopia

- Led the complete software development lifecycle, architecting and building the company's primary software product from concept to a successful, scalable deployment.
- Engineered a highly available backend system from the ground up, designing the database schema and developing all core API endpoints.

### EDUCATION

#### B.Sc. in Electrical Engineering

Hawassa University

2020 – 2023  
Hawassa, Ethiopia

Transferred from Mekelle University (2018-2020) due to regional conflict.

### SKILLS

#### Frontend

React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwindcss

#### Backend

Node.js, NestJS, Express.js, JWT

#### Databases & ORMs

PostgreSQL, MongoDB, Supabase, Prisma

#### Tools & Platforms

Git, Vite, MS Power Apps, Vercel, Meilisearch

PERSONAL PROJECTS

SkillBridge – Freelance Marketplace Platform

11/2025 – 01/2026

- Solo project
- Designed and developed a full-stack freelance marketplace connecting clients with remote tech talent.
  - Implemented a **secure escrow-based payment system** supporting multi-currency wallets (USD, ETB) and automated payouts.
  - Integrated Ethiopian Payment Infrastructure using Chapa mobile wallet withdrawals, alongside global payouts via Stripe.
  - Built a double-entry ledger system for accurate financial tracking and reconciliation.
  - Developed backend services using **Node.js, Express, TypeScript, PostgreSQL, and Prisma ORM**.
  - Implemented secure **wallet management, dispute handling, reputation systems, and escrow release workflows**.

Ewket AI Learning Platform (AI Study Buddy)

2024–Summer

- Solo Project
- Architected a full-stack AI study buddy platform, building a responsive front-end with React/Vite and a secure, modular backend with NestJS and Prisma ORM.
  - Engineered a robust AI integration that proxies requests to models like Groq and Gemini, featuring real-time streaming responses and JSON sanitization for reliability.
  - Implemented secure user authentication with JWT, chat session management, and automated email notifications, creating a platform that democratizes education via 24/7 AI tutoring.
